**Senior Software Engineer**

Total Professional Experience: **7 Years +**

<http://parikshit-salunkhe.com>

### **SUMMARY**

- Seasoned Software Professional with in depth understanding of all phases of SDLC, focusing on translating business requirements into viable technical solutions.
- Proven track record of designing and implementing flexible solutions which support frequent UI and functionality changes.
- Ability to coordinate medium sized project from initial conceptualization through implementation.
- Strong understanding of multiple javascript frameworks like Angular, Angular js, Backbone js & Marionette js.**
- A quick learner who can swiftly adapt to new challenges.
- Experienced and very comfortable working in an **Agile Scrum** development process.
- Excellent knowledge in .NET Framework, **ASP.NET Core**, **Angular**, **Typescript**, Javascript, WebAPI, WCF, Windows Services, Entity Framework, ADO.NET, SSRS and MS SQL Server.
- Ability to keep pace with ever changing IT industry by constantly evolving with the latest technologies available.

<b>PRIMARY SKILLS</b>	
<b>Languages</b>	C#, JavaScript, TypeScript, T-SQL
<b>.NET Technologies</b>	.NET Core, MVC, ASP.NET Core, Web API, WCF, Windows Service, ADO.NET, Entity Framework, LINQ, AJAX
<b>FrontEnd Frameworks</b>	Angular, Backbone js, Marionette js, Angular js
<b>Database Tools</b>	Microsoft SQL Server, SQL Server Agent, SQL Profiler
<b>Other Tools</b>	TFS, WinDBG, DebugDaig, Process Explorer, Performance Monitor, Procdump etc

### **OTHER SKILLS**

#### **Knowledge of Production Level debugging using SYSINTERNALS suite:**

- Skilled to troubleshoot and resolve common application problems like Memory Leak, Hangs, Crash, High CPU Utilization etc. by using tools from freely available Microsoft supported suite 'Sysinternals'.

#### **Application level security:**

- Experience in mitigating various security related vulnerabilities and delivering applications that are robust and highly secure for financial trading.

### **PROFESSIONAL EXPERIENCE**

<b>Company Name</b>	<b>Designation</b>	<b>From &amp; To date</b>	<b>Duration</b>
Hexaware Technologies Limited	Senior Software Engineer	January 2019 to Present	1 Year 03 Months
<u>On payroll of</u> a) Vara United Pvt Ltd b) 3I Infotech Limited Client: ICICI Bank Limited	Senior Software Engineer	November 2014 to January 2019	4 Year 02 Months
Sudesi InfoTech Private Limited	Software Developer	April 2013 to November 2014	1 Year 07 Months
<b>Total Experience</b>			<b>7 Years</b>

### **Technology used**

**ASP.Net Core, Web APIs, Backbone js, Marionette js, Javascript, MS SQL Server, C#, Entity Framework, TFS**

---

**Project:** Instant Forex

**Company:** 3I Infotech Limited and Vara united Pvt Ltd

**Client:** ICICI Bank Limited (Banking & Forex Trading Domain)

**Role:** Senior Developer / Project Lead

**Duration:** November 2014 till January 2019

**Currently application has two channels to carry out transactions:**

1. **Mobile:** ICICI's official mobile banking app 'iMobile'
2. **Web:** <https://infinity.icicibank.com/corp/Login.jsp>  
(Integrated with ICICI banks official Internet banking portal)

- Application helps the bank to trade Currencies like (USD, GBP, EUR, ZAR, SGD etc.) online.
- Customers can either BUY Currency Notes or Travel Card or can SELL them back to bank.
- Using this portal ICICI bank account holder gets the facility to perform Instant reload on their Travel Card.
- Where in, Customer is given best rate for the required currency. Post his confirmation, his Saving Account is debited and the requested currency is loaded onto his ICICI bank Travel Card instantly.
- All the transaction are processed through WCF services with intermediary applications like OSB / EAI in between.
- Service oriented architecture is followed for transactions. (One implementation written through WCF is consumed by multiple clients running on different platforms and utilizing different technologies.)
- Deals are then processed by 2 different modules in the Web Application. After which, they are flown to different sub-systems like Finacle (Core banking) and Murex.

### **Technology used**

**Angular, MVC, WCF, MS SQL Server, C#,AJAX, JQuery.**  
SQL Server Agent, Windows Services.  
**API Gateway Integration**

### **OTHER PROJECTS UNDERTAKEN**

<b>Sr No</b>	<b>Project Name</b>	<b>Description</b>	<b>Technologies used</b>	<b>Role</b>
1	eApproal	Processing home loan application with CIBIL enquiry online. Customers application will either be eApproved or rejected in less than 10 mins.	ASP.NET, MS SQL Server	Developer
2	CCPTS	System which helps estimate sales & plan future production in Construction chemical industry.	WCF, MVC, MS SQL Server	Developer
3	Timeline	Small application which maps all the customer documents stored in DMS on a single timeline so as to provide customer with hassel free user experience.	ASP.NET, AJAX, MS SQL Server	Developer

### **EDUCATION BACKGROUND**

<b>Bachelor of Engineering in IT.</b> University of Pune, Maharashtra. India.	<b>First Class with Distinction</b>	<b>2009 – 2012</b>
<b>Diploma in Engineering</b> (Information Technology)	<b>First Class</b>	<b>2005 – 2009</b>
<b>Secondary School Certification</b> (SSC)	<b>First Class</b>	<b>1996 – 2005</b>

### **PERSONAL INFORMATION**

<b>Name:</b>	Parikshit Prabhakar Salunkhe
<b>Address:</b>	Flat #302, Shubham CHS, Sector 20D, Airoli, Navi Mumbai
